Professional Summary

Computer Science graduate targeting Data Analyst and Python Full Stack Developer roles. Skilled in Python, SQL, Excel, Pandas, data analysis, reporting automation, and web application development. Built portfolio projects focused on business reporting, pricing analysis, and data-driven applications.

Technical Skills

Data Analytics: Python, SQL, Pandas, NumPy, Excel, Data Cleaning, Exploratory Data Analysis, KPI Reporting, MIS Reporting, Trend Analysis
BI & Reporting: Power BI, Dashboarding, Data Visualization, PivotTables, Business Performance Analysis, Automated Reports
Python Development: Django, Flask, REST APIs, OOP, Automation, HTML, CSS, JavaScript
Databases & Tools: PostgreSQL, MySQL, Git, GitHub, VS Code

Projects

Sales & Operations MIS Reporting System GitHub
Python, SQL, Excel, Pandas, openpyxl
- Built an automated reporting workflow for 19,000+ sales records across 120 products, 10 categories, and 6 regions to support daily and monthly business tracking.
- Developed data validation, sales summaries, KPI reports, and Excel outputs to streamline performance monitoring and reduce repetitive reporting work.

Dynamic Pricing Analysis & Revenue Intelligence GitHub
Python, SQL, Pandas, NumPy, Data Visualization
- Analyzed 98,000+ price observations across 180 products to investigate pricing patterns, product-level trends, and potential revenue opportunities.
- Used SQL queries and Python-based analysis to compare pricing scenarios and summarize findings for data-driven pricing decisions.

InsightFlow BI – Business Intelligence Platform GitHub
Python, Django, React, PostgreSQL, REST APIs
- Developed a BI platform concept for dataset uploads, data preparation, KPI monitoring, interactive dashboards, and business reporting.
- Designed a full-stack architecture combining a Python backend, REST APIs, database persistence, and a dashboard-oriented frontend.

SkillForge – Adaptive Learning Platform GitHub
Python, Django, REST APIs, SQL, Role-Based Access
- Worked on a learning-platform project focused on course management, student and tutor workflows, and role-based access for platform users.
- Applied backend development and database concepts to organize learning data and support course administration and reporting workflows.

Experience

Python Development Intern Feb 2026 – Jun 2026
Besant Technologies / Hybrid
- Strengthened Python programming and SQL skills through practical exercises and project-based training.
- Practiced data analysis, Excel, and Power BI concepts to support data handling, reporting, and business intelligence tasks.

Python Development Intern Jul 2025 – Aug 2025
ShadowFox
- Developed Python scripts for automation and data extraction using Requests, BeautifulSoup, and regular expressions.
- Practiced modular code design, debugging, and backend workflow improvements through development tasks and code reviews.

Education

Bangalore Technological Institute 2022 – 2026
B.E. in Computer Science and Engineering CGPA: 8.8

Certifications

- Python Programming – NPTEL
- Python and Django Development – Udemy
- Microsoft Excel and Power BI – Udemy
